KPMG Chartered Accountants P.O. Box 436 6 Duke Street Kingston Jamaica, W.I. +1 (876) 922 6640 firmmail@kpmg.com.jm

INDEPENDENT AUDITORS' REPORT

To the Registrar of Co-operative Societies JAMAICA TEACHERS' ASSOCIATION CO-OPERATIVE CREDIT UNION LIMITED (A Society Registered Under the Co-operative Societies Act)

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of Jamaica Teachers' Association Cooperative Credit Union Limited ("the Co-operative"), set out on pages 4 to 76, which comprise the statement of financial position as at December 31, 2021, the statements of profit or loss and other comprehensive income, changes in equity and cash flows for the year then ended, and notes, comprising significant accounting policies and other explanatory information.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Co-operative as at December 31, 2021, and of its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRS) and the Co-operative Societies Act.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Co-operative in accordance with the International Ethics Standards Board for Accountants International Code of Ethics for Professional Accountants including International Independence Standards (IESBA Code), and we have fulfilled our other ethical responsibilities in accordance with the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Report on the Audit of the Financial Statements (continued)

Other Information

Management is responsible for the other information. The other information comprises the information included in the annual report but does not include the financial statements and our auditors' report thereon. The annual report is expected to be made available to us after the date of this auditors' report.

Our opinion on the financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

When we read the annual report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with IFRS and the Co-operative Societies Act, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Co-operative's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Co-operative or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Cooperative's financial reporting process.

INDEPENDENT AUDITORS' REPORT (CONTINUED)

To the Registrar of Co-operative Societies JAMAICA TEACHERS' ASSOCIATION CO-OPERATIVE CREDIT UNION LIMITED (A Society Registered Under the Co-operative Societies Act)

Report on the Audit of the Financial Statements (continued)

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Co-operative's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Co-operative's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Co-operative to cease to continue as a going concern.

INDEPENDENT AUDITORS' REPORT (CONTINUED)

To the Registrar of Co-operative Societies JAMAICA TEACHERS' ASSOCIATION CO-OPERATIVE CREDIT UNION LIMITED (A Society Registered Under the Co-operative Societies Act)

Report on the Audit of the Financial Statements (continued)

Auditors' Responsibilities for the Audit of the Financial Statements (continued)

• Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Report on additional matters as required by the Co-operative Societies Act

We have obtained all the information and explanations which, to the best of our knowledge and belief, were necessary for the purposes of our audit.

In our opinion, proper accounting records have been maintained, so far as appears from our examination of those records, and the financial statements, which are in agreement therewith, give the information required by the Co–operative Societies Act in the manner so required.

JAMAICA TEACHERS' ASSOCIATION CO-OPERATIVE CREDIT UNION LIMITED (A Society Registered Under the Co-operative Societies Act)

Notes to the Financial Statements December 31, 2021

1. Identification

Jamaica Teachers' Association Co-operative Credit Union Limited ("Co-operative") is incorporated and domiciled in Jamaica and is registered under the Co-operative Societies Act ("Act"), and has its registered office at 97a Church Street, Kingston, Jamaica.

The main activities of the Co-operative are to promote thrift among its members by affording them an opportunity to accumulate savings and to create for them a source of credit for provident or productive purposes at a reasonable rate of interest.

Membership in the Co-operative is obtained by the holding of members' permanent [note 23(a)] and voluntary shares which are deposits available for withdrawals on demand. Individual membership may not exceed 20% of the total of the members' shares of the Co-operative.

2. <u>Regulation</u>

The Co-operative Societies Act requires, amongst other provisions, that at least 20% of the net surplus of the Co-operative be transferred annually to a reserve fund. The Co-operative is exempt from Income Tax under Section 59(i) of the Co-operative Societies Act and Section 12 of the Income Tax Act.

3. Basis of preparation

(a) Statement of compliance

The financial statements are prepared in accordance with International Financial Reporting Standards ("IFRS") and comply with the relevant provisions of the Cooperative Societies Act.

New and amended standards adopted during the year

Certain new and amended standards which were in issue came into effect during the year. The adoption of those standards did not have any impact on the amounts recognised or disclosed in the financial statements.

(A Society Registered Under the Co-operative Societies Act)

Notes to the Financial Statements (Continued) December 31, 2021

3. Basis of preparation (continued)

(a) Statement of compliance (continued)

New and amended standards that are not yet effective:

At the date of authorisation of these financial statements, certain new and amended standards have been issued which were not effective for the current year and which the Co-operative has not early-adopted. The Co-operative has assessed them with respect to its operations and has determined that the following may be relevant:

• Amendments to IAS 37 *Provision*, *Contingent Liabilities and Contingent Assets* is effective for annual periods beginning on or after January 1, 2022 and clarifies those costs that comprise the costs of fulfilling the contract.

The amendments clarify that the 'costs of fulfilling a contract' comprise both the incremental costs - e.g. direct labour and materials; and an allocation of other direct costs - e.g. an allocation of the depreciation charge for an item of property, plant and equipment used in fulfilling the contract. This clarification will require entities that apply the 'incremental cost' approach to recognise bigger and potentially more provisions. At the date of initial application, the cumulative effect of applying the amendments is recognised as an opening balance adjustment to retained earnings or other component of equity, as appropriate. The comparatives are not restated.

- Annual Improvements to IFRS Standards 2018-2020 cycle contain amendments to IFRS 1 *First-time Adoption of International Financial Reporting Standards*, IFRS 9 *Financial Instruments*, IFRS 16 *Leases*, IAS 41 *Agriculture*, and are effective for annual periods beginning on or after January 1, 2022.
 - (i) IFRS 9 *Financial Instruments* amendment clarifies that for the purpose of performing the '10 per cent test' for derecognition of financial liabilities – in determining those fees paid net of fees received, a borrower includes only fees paid or received between the borrower and the lender, including fees paid or received by either the borrower or lender on the other's behalf.
 - (ii) IFRS 16 *Leases* amendment removes the illustration of payments from the lessor relating to leasehold improvements.
 - (iii) The amendments to IAS 41 *Agriculture* remove the requirement to exclude cash flows for taxation when measuring fair value, thereby aligning the fair value measurement requirements in IAS 41 with those in IFRS 13 *Fair Value Measurement*.

(A Society Registered Under the Co-operative Societies Act)

Notes to the Financial Statements (Continued) December 31, 2021

3. <u>Basis of preparation (continued)</u>

(a) Statement of compliance (continued)

New and amended standards that are not yet effective (continued):

• Amendments to IAS 1 *Presentation of Financial Statements*, will apply retrospectively for annual reporting periods beginning on or after 1 January 2023. The amendments promote consistency in application and clarify the requirements on determining if a liability is current or non-current.

Under existing IAS 1 requirements, companies classify a liability as current when they do not have an unconditional right to defer settlement of the liability for at least twelve months after the end of the reporting period. As part of its amendments, the requirement for a right to be unconditional has been removed and instead, now requires that a right to defer settlement must have substance and exist at the end of the reporting period. A company classifies a liability as non-current if it has a right to defer settlement for at least twelve months after the reporting period. It has now been clarified that a right to defer exists only if the company complies with conditions specified in the loan agreement at the end of the reporting period, even if the lender does not test compliance until a later date.

With the amendments, convertible instruments may become current. In light of this, the amendments clarify how an entity classifies a liability that includes a counterparty conversion option, which could be recognised as either equity or a liability separately from the liability component under IAS 32. Generally, if a liability has any conversion options that involve a transfer of the entity's own equity instruments, these would affect its classification as current or non-current. It has now been clarified that an entity can ignore only those conversion options that are recognised as equity when classifying liabilities as current or non-current.

• Amendments to IFRS 16 *Leases* are effective for annual periods beginning on or after April 1, 2021, early adoption is permitted. The amendments extend the practical expedient by 12 months – i.e. allowing lessees to apply it to rent concessions for which any reduction in lease payments affects only payments originally due on or before 30 June 2022.

The 2021 amendments are applied retrospectively with the cumulative effect of initially applying it being recognised in opening retained earnings. The disclosure requirements of Paragraph 28(f) of IAS 8 *Accounting Policies, Changes in Accounting Estimates and Errors* do not apply on initial application.

(A Society Registered Under the Co-operative Societies Act)

Notes to the Financial Statements (Continued) December 31, 2021

3. <u>Basis of preparation (continued)</u>

(a) Statement of compliance (continued)

New and amended standards that are not yet effective (continued):

• Amendments to IAS 1 *Presentation of Financial Statements* are effective for annual reporting periods beginning on or after January 1, 2023 and may be applied earlier. The amendments help companies provide useful accounting policy disclosures.

The key amendments to IAS 1 include:

- Requiring companies to disclose their *material* accounting policies rather than their *significant* accounting policies;
- clarifying that accounting policies related to immaterial transactions, other events or conditions are themselves immaterial and as such need not be disclosed; and
- clarifying that not all accounting policies that relate to material transactions, other events or conditions are themselves material to a company's financial statements.

The amendments are consistent with the refined definition of material:

"Accounting policy information is material if, when considered together with other information included in an entity's financial statements, it can reasonably be expected to influence decisions that the primary users of general purpose financial statements make on the basis of those financial statements".

• Amendments to IAS 8 *Accounting Policies, Changes in Accounting Estimates and Errors* are effective for periods beginning on or after January 1, 2023, with early adoption permitted. The amendments introduce a new definition for accounting estimates: clarifying that they are monetary amounts in the financial statements that are subject to measurement uncertainty.

The amendments also clarify the relationship between accounting policies and accounting estimates by specifying that a company develops an accounting estimate to achieve the objective set out by an accounting policy. Developing an accounting estimate includes both:

- selecting a measurement technique (estimation or valuation technique) e.g. an estimation technique used to measure a loss allowance for expected credit losses when applying IFRS 9 *Financial Instruments*; and
- choosing the inputs to be used when applying the chosen measurement technique – e.g. the expected cash outflows for determining a provision for warranty obligations when applying IAS 37 Provisions, Contingent Liabilities and Contingent Assets.

The effects of changes in such inputs or measurement techniques are changes in accounting estimates.

The Co-operative does not expect these amendments to have a significant impact on its financial statements when they become effective.

(A Society Registered Under the Co-operative Societies Act)

Notes to the Financial Statements (Continued) December 31, 2021

3. Basis of preparation (continued)

(b) Basis of measurement

The financial statements are prepared on the historical cost basis, except for the inclusion of certain investments at fair value. The methods used to measure fair value are set out in note 7. Additionally, employee benefits asset is recognised as plan assets, less the present value of the defined benefit obligation and is limited as explained in note 4(d)(ii).

(c) Functional and presentation currency

The financial statements are presented in Jamaica dollars which is the Co-operative's functional currency. The financial information presented are shown in thousands of Jamaica dollars, unless otherwise indicated.

4. <u>Significant accounting policies</u>

(a) Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and financial liability or equity instrument of another entity.

- Financial assets comprise loans to members, liquid assets, resale agreements, financial investments, cash and cash equivalents and other assets.
- Financial liabilities comprise lease liabilities, members' voluntary shares, members' deposits, external credits and other liabilities.
- (i) Recognition and initial measurement

Financial instruments are classified, recognised and measured in accordance with the substance of the terms of the contracts as set out herein.

The Co-operative recognises a financial instrument when it becomes a party to the contractual terms of the instrument. The Co-operative initially recognises loans and deposits on the date when they are originated. All other financial assets and financial liabilities are initially recognised on the trade date, which is the date on which the Co-operative becomes a party to the contractual provisions of the instrument.

A financial asset (unless it is a receivable without a significant financing component) or financial liability is initially measured at fair value plus, for an item not at FVTPL, transaction costs that are directly attributable to its acquisition or issue. A receivable without a significant financing component is initially measured at the transaction price.

(A Society Registered Under the Co-operative Societies Act)

Notes to the Financial Statements (Continued) December 31, 2021

4. <u>Significant accounting policies (continued)</u>

- (a) Financial instruments (continued)
 - (ii) Classification and subsequent measurement

Financial assets

On initial recognition, a financial asset is classified as measured at: amortised cost; fair value through other comprehensive income (FVOCI) – debt and equity investments; or fair value through profit or loss (FVTPL).

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding (SPPI).

A debt investment is measured at FVOCI if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding (SPPI).

On initial recognition of an equity investment that is not held for trading, the Cooperative may irrevocably elect to present subsequent changes in fair value in other comprehensive income. This election is made on an investment-byinvestment basis.

All financial assets not classified as measured at amortised cost or FVOCI are measured at FVTPL. On initial recognition, the Co-operative may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

Business model assessments:

The Co-operative makes an assessment of the objective of the business model in which a financial asset is held at a portfolio level because this best reflects the way the business is managed and information is provided to management. The information considered includes:

- the stated policies and objectives for the portfolio and the operation of those policies in practice. These include whether management's strategy focuses on earning contractual interest income, maintaining a particular interest rate profile, matching the duration of the financial assets to the duration of any related liabilities that are funding these assets or realising cash flows through the sale of the assets;

(A Society Registered Under the Co-operative Societies Act)

Notes to the Financial Statements (Continued) December 31, 2021

4. <u>Significant accounting policies (continued)</u>

- (a) Financial instruments (continued)
 - (ii) Classification and subsequent measurement (continued)

Financial assets (continued)

Business model assessments (continued):

- how the performance of the portfolio is evaluated and reported to the Cooperative's management;
- the risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed;
- how managers of the business are compensated e.g. whether compensation is based on the fair value of the assets managed or the contractual cash flows collected; and
- the frequency, volume and timing of sales of financial assets in prior periods, the reasons for such sales and expectations about future sales activity. However, the information about sales activity is not considered in isolation, but as part of an overall assessment of how the Co-operative's stated objective for managing the financial assets is achieved and how cash flows are realised.

Assessment of whether contractual cash flows are solely payments of principal and interest:

For the purposes of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Interest' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as a profit margin.

The Co-operative's objective is achieved by both collecting contractual cash flows and selling financial assets.

In assessing whether the contractual cash flows are solely payments of principal and interest, the Co-operative considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making this assessment, the Co-operative considers the following:

- contingent events that would change the amount or timing of cash flows;
- terms that may adjust the contractual coupon rate, including variable-rate features;
- leverage features, that modify consideration of the time value of money such as periodic reset of interest rates;
- prepayment and extension features; and
- terms that limit the Co-operative's claim to cash flows from specified assets (e.g. non-recourse features).

(A Society Registered Under the Co-operative Societies Act)

Notes to the Financial Statements (Continued) December 31, 2021

4. <u>Significant accounting policies (continued)</u>

- (a) Financial instruments (continued)
 - (ii) Classification and subsequent measurement (continued)

Financial assets (continued)

Assessment of whether contractual cash flows are solely payments of principal and interest (continued):

A prepayment feature is consistent with the solely payments of principal and interest criterion if the prepayment amount substantially represents unpaid amounts of principal and interest on the principal amount outstanding, which may include reasonable additional compensation for early termination of the contract. Additionally, for a financial asset acquired at a discount or premium to its contractual par amount, a feature that permits or requires prepayment at an amount that substantially represents the contractual par amount plus accrued (but unpaid) contractual interest (which may also include reasonable additional compensation for early termination) is treated as consistent with this criterion if the fair value of the prepayment feature is insignificant at initial recognition.

Reclassifications

Financial assets are not reclassified subsequent to their initial recognition, except in the period after the Co-operative changes its business model for managing financial assets, in which case all affected financial assets are reclassified on the first reporting period following the change in business model.

Financial liabilities

The Co-operative classifies financial liabilities as measured at amortised cost.

(iii) Derecognition

Financial assets

The Co-operative derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or when it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred, or if it neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control over the transferred financial asset.

On derecognition of a financial asset, the difference between the carrying amount of the asset (or the carrying amount allocated to the portion of the asset derecognised) and the sum of (i) the consideration received (including any new asset obtained less any new liability assumed) and (ii) any cumulative gain or loss that had been recognised in OCI is recognised in profit or loss.

Any cumulative gains or losses recognised in OCI in respect of equity investment securities designated as at FVOCI is not recognised in profit or loss on derecognition of such securities. Any interest in transferred financial assets that qualify for derecognition that is created or retained by the Co-operative is recognised as a separate asset or liability.

(A Society Registered Under the Co-operative Societies Act)

Notes to the Financial Statements (Continued) December 31, 2021

4. Significant accounting policies (continued)

- (a) Financial instruments (continued)
 - (iii) Derecognition (continued)

Financial liabilities

The Co-operative derecognises a financial liability when its contractual obligations expire or are discharged or cancelled.

(iv) Measurement and gains and losses

Financial assets at amortised cost are initially measured at fair value plus incremental direct transaction costs, and subsequently at their amortised cost using the effective interest method. The amortised cost is reduced by impairment losses.

For debt securities measured at FVOCI, gains and losses are recognised in OCI, except for the following, which are recognised in surplus or deficit in the same manner as for financial assets measured at amortised cost:

- interest revenue using the effective interest method;
- expected credit losses (ECL) and reversals; and
- foreign exchange gains and losses.

When a debt security measured at FVOCI is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to surplus or deficit.

(v) Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the statement of financial position when, and only when, the Co-operative has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

- (vi) Specific financial instruments
 - (1) Loans

Loans in the statement of financial position include loans measured at amortised cost. They are initially measured at fair value, plus incremental direct transaction costs and are subsequently measured at amortised cost less any expected credit loss allowance.

(2) Resale agreements

Resale agreements ("reverse repos") are short-term transactions whereby an entity buys securities and simultaneously agrees to resell them on a specified date and at a specified price. Reverse repos are accounted for as short-term collateralised lending and are classified and measured at amortised cost.

(A Society Registered Under the Co-operative Societies Act)

Notes to the Financial Statements (Continued) December 31, 2021

4. Significant accounting policies (continued)

- (a) Financial instruments (continued)
 - (vi) Specific financial instruments (continued)
 - (2) Resale agreements (continued)

The difference between the sale and repurchase consideration is recognised on the accrual basis over the period of the transaction and is included in interest income.

(3) Cash and cash equivalents

Cash and cash equivalents are classified and measured at amortised cost. They comprise cash and bank balances and short-term liquid deposits, where original maturities do not exceed three months, are readily convertible to known amounts of cash, are subject to an insignificant risk of changes in value, and are held for the purpose of meeting short-term commitments, rather than for investment purposes.

For the purposes of the statement of cash flows, cash and cash equivalents comprise cash in hand and bank deposits not held to satisfy statutory requirements, net of bank overdraft, if any.

(4) Other assets

Other assets comprising sundry receivables, deposits and prepayments are classified and measured at amortised cost less impairment losses.

(5) Other liabilities

Other liabilities comprise other payables and are measured at amortised cost.

(6) External credits

External credits are initially recognised at fair value less any directly attributable transaction costs. Subsequent to initial recognition, they are measured at amortised cost using the effective interest method.

(vii) Identification and measurement of impairment

The Co-operative recognises loss allowances for expected credit losses (ECL) on the following financial instruments that are not measured at FVTPL:

- financial assets measured at amortised cost; and
- debt instruments measured at FVOCI.

No impairment loss is recognised on equity investments.

The Co-operative measures loss allowances at an amount equal to lifetime ECL, except for the following, which are measured as 12-month ECL:

- debt securities that are determined to have low credit risk at the reporting date; and
- other financial instruments on which credit risk has not increased significantly since their initial recognition.

(A Society Registered Under the Co-operative Societies Act)

Notes to the Financial Statements (Continued) December 31, 2021

4. <u>Significant accounting policies (continued)</u>

- (a) Financial instruments (continued)
 - (vii) Identification and measurement of impairment (continued)

The Co-operative considers a debt security to have low credit risk when its credit risk rating is equivalent to the globally understood definition of 'investment grade'. The Co-operative does not apply the low credit risk exemption to any other financial instruments.

12-month ECLs are the portion of ECLs that result from default events on a financial instrument that are possible within 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months). Financial instruments for which a 12-month ECL is recognised are referred to as 'Stage 1 financial instruments'.

Lifetime ECLs are the ECLs that result from all possible default events over the expected life of a financial instrument. Financial instruments for which a lifetime ECL is recognised but which are not credit-impaired are referred to as 'Stage 2 financial instruments'.

Measurement of ECLs

ECLs are a probability-weighted estimate of credit losses. They are measured as follows:

- *financial assets that are not credit-impaired at the reporting date:* as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the entity in accordance with the contract and the cash flows that the Co-operative expects to receive); and
- *financial assets that are credit-impaired at the reporting date:* as the difference between the gross carrying amount and the present value of estimated future cash flows.

Restructured financial assets

If the terms of a financial asset are renegotiated or modified or an existing financial asset is replaced with a new one due to financial difficulties of the borrower, then an assessment is made of whether the financial asset should be derecognised and ECLs are measured as follows:

- If the expected restructuring will not result in derecognition of the existing asset, then the expected cash flows arising from the modified financial asset are included in calculating the cash shortfalls from the existing asset.

(A Society Registered Under the Co-operative Societies Act)

Notes to the Financial Statements (Continued) December 31, 2021

4. <u>Significant accounting policies (continued)</u>

- (a) Financial instruments (continued)
 - (vii) Identification and measurement of impairment (continued)

Restructured financial assets (continued)

- If the expected restructuring will result in derecognition of the existing asset, then the expected fair value of the new asset is treated as the final cash flow from the existing financial asset at the time of its derecognition. This amount is included in calculating the cash shortfalls from the existing financial asset that are discounted from the expected date of derecognition to the reporting date using the original effective interest rate of the existing financial asset.

Credit-impaired financial assets

At each reporting date, the Co-operative assesses whether financial assets carried at amortised cost and debt instruments carried at FVOCI are credit-impaired (referred to as 'Stage 3 financial assets'). A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit-impaired includes the following observable data:

- significant financial difficulty of the borrower or issuer;
- a breach of contract such as a default or past due event;
- the restructuring of a loan or advance by the Co-operative on terms that the Co-operative would not otherwise consider;
- it is becoming probable that the borrower will enter bankruptcy or other financial reorganisation; or
- the disappearance of an active market for a security because of financial difficulties.

A loan that has been renegotiated due to a deterioration in the borrower's condition is usually considered to be credit-impaired unless there is evidence that the risk of not receiving contractual cash flows has reduced significantly and there are no other indicators of impairment. In addition, a loan that is overdue for 90 days or more is considered credit-impaired even when the regulatory definition of default is different.

(A Society Registered Under the Co-operative Societies Act)

Notes to the Financial Statements (Continued) December 31, 2021

4. Significant accounting policies (continued)

- (a) Financial instruments (continued)
 - (vii) Identification and measurement of impairment (continued)

Credit-impaired financial assets (continued)

In making an assessment of whether an investment in sovereign debt is creditimpaired, the Co-operative considers the following factors.

- The market's assessment of creditworthiness as reflected in the bond yields.
- The rating agencies' assessments of creditworthiness.
- The country's ability to access the capital markets for new debt issuance.
- The probability of debt being restructured, resulting in holders suffering losses through voluntary or mandatory debt forgiveness.
- The international support mechanisms in place to provide the necessary support as 'lender of last resort' to that country, as well as the intention, reflected in public statements, of governments and agencies to use those mechanisms. This includes an assessment of the depth of those mechanisms and, irrespective of the political intent, whether there is the capacity to fulfil the required criteria.

Presentation of allowance for ECL in the statement of financial position

Loss allowances for ECL are presented in the statement of financial position as follows:

- *financial assets measured at amortised cost:* as a deduction from the gross carrying amount of the assets.
- *debt instruments measured at FVOCI:* no loss allowance is recognised in the statement of financial position because the carrying amount of these assets is their fair value. However, the loss allowance is disclosed and is recognised in the fair value reserve.

Write-off

Loans and debt securities are written off (either partially or in full) when there is no reasonable expectation of recovering a financial asset in its entirety or a portion thereof. This is generally the case when the Co-operative determines that the borrower does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off. This assessment is carried out at the individual asset level.

(A Society Registered Under the Co-operative Societies Act)

Notes to the Financial Statements (Continued) December 31, 2021

4. <u>Significant accounting policies (continued)</u>

- (a) Financial instruments (continued)
 - (vii) Identification and measurement of impairment (continued)

Write-off (continued)

Recoveries of amounts previously written off are included in 'impairment losses on financial instruments' in the statement of profit or loss and OCI.

Financial assets that are written off could still be subject to enforcement activities in order to comply with the Co-operative's procedures for recovery of amounts due.

The guidelines stipulated by the Jamaica Co-operative Credit Union League ("JCCUL"), according to the PEARLS standard, require the allowance for loan losses be stipulated percentages of total delinquent loans, the percentages varying with the period of delinquency, without considering securities held against such loans.

The Co-operative's impairment loss provision requirements, as stipulated by JCCUL, that exceed the IFRS impairment provision are dealt with in a nondistributable loan loss reserve as an appropriation of accumulated surplus.

- (b) Property, plant and equipment
 - (i) Measurement

Items of property, plant and equipment are measured at cost, less accumulated depreciation and impairment losses. Cost includes expenditures that are directly attributable to the acquisition of the asset. The cost of self-constructed assets includes the cost of material and direct labour, and any other costs directly attributable to bringing the asset to a working condition for its intended use.

(ii) Subsequent costs

The cost of replacing part of an item of property, plant and equipment is recognised in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Co-operative and its cost can be measured reliably. The costs of the day-to-day servicing of property, plant and equipment are recognised in surplus or deficit.

(A Society Registered Under the Co-operative Societies Act)

Notes to the Financial Statements (Continued) December 31, 2021

4. <u>Significant accounting policies (continued)</u>

- (b) Property, plant and equipment (continued)
 - (iii) Depreciation

Depreciation is recognised in surplus or deficit on the straight-line basis at rates estimated to write-down the relevant assets, over their expected useful lives, to their residual values. Land is not depreciated. The rates used are as follows:

Buildings	21/2%
Leasehold improvements	10%
Office furniture and equipment	10% - 25%
Right-of-use assets	12.5 - 50%

Depreciation methods, useful lives and residual values are reviewed at each reporting date.

(c) Intangible assets

Intangible assets represent software rights and is measured at cost, less accumulated amortisation and impairment losses. Amortisation method, useful life and residual value are reviewed at each reporting date and adjusted if appropriate with the effect of any changes in the estimate being accounted for on a prospective basis.

Amortisation is charged to surplus or deficit on the straight-line basis over the estimated useful life of the intangible asset, from the date it is available for use. The expected useful life of computer software is 10 years.

- (d) Employee benefits
 - (i) General

Employee benefits are all forms of consideration given by the Co-operative in exchange for services rendered by employees. These include current or short-term benefits such as salaries, bonuses, National Insurance Scheme (NIS) contributions, annual vacation leave, and non-monetary benefits such as medical care; post-employment benefits such as pensions; and other long-term employee benefits such as termination benefits.

Employee benefits that are earned as a result of past or current service are recognised in the following manner: short-term employee benefits are recognised as a liability, net of payments made, and charged as expense. The expected cost of vacation leave that accumulates is recognised when the employee becomes entitled to the leave.

(A Society Registered Under the Co-operative Societies Act)

Notes to the Financial Statements (Continued) December 31, 2021

4. <u>Significant accounting policies (continued)</u>

- (d) Employee benefits (continued)
 - (ii) Pension benefits

The employees of the Co-operative participate in a defined benefit multi-employer pension plan operated by The Jamaica Co-operative Credit Union League (JCCUL). Effective December 31, 2016, the defined benefit pension plan was closed to new members. New members to the plan participate in a defined contribution multi-employer pension plan operated by JCCUL [see note 26(i)].

Obligations for contributions to the defined contribution plan are recognised as an expense in surplus or deficit as incurred.

Employee benefits asset included in the financial statements has been actuarially determined by a qualified independent actuary, appointed by JCCUL. The appointed actuary's report outlines the scope of the valuation and the actuary's opinion. The actuarial valuation is conducted in accordance with IAS 19, and the financial statements reflect the Co-operative's employee benefits asset as computed by the actuary. In carrying out their audit, the auditors rely on the work of the actuary and the actuary's report.

The calculation of defined benefit obligation is performed annually using the projected unit credit method. When the calculation results in a potential asset for the Co-operative, the recognised asset is limited to the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plan. To calculate the present value of economic benefits, consideration is given to any applicable minimum funding requirements.

Remeasurements of the net defined benefit asset, which comprise actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest), are recognised immediately in other comprehensive income. The Co-operative determines the net interest expense (income) on the net defined benefit asset for the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period to the then net defined benefit asset, taking into account any changes in the net defined benefit asset during the period as a result of contributions and benefit payments. Net interest expense and other expenses related to defined benefit plans are recognised in surplus or deficit.

(e) Investment property

Investment property comprises properties held to earn rentals and/or for capital appreciation, and are measured at cost less any accumulated depreciation and impairment losses.

(A Society Registered Under the Co-operative Societies Act)

Notes to the Financial Statements (Continued) December 31, 2021

4. <u>Significant accounting policies (continued)</u>

(e) Investment property (continued)

The gain or loss arising on the disposal or retirement of an investment property is determined as the difference between the sales proceeds and the carrying amount of the property and is recognised in surplus or deficit.

Investment property, other than land, is depreciated on a straight-line basis over its estimated useful life at $2\frac{1}{2}$ %.

Rental income on the properties is recognised in surplus or deficit on a straight-line basis over the life of the lease agreement.

(f) Leases

At inception of a contract, the Co-operative assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Co-operative uses the definition of a lease in IFRS 16.

As a lessee

At commencement or on modification of a contract that contains a lease component, the Co-operative allocates the consideration in the contract to each lease component on the basis of its relative stand-alone prices. Therefore, for leases of property, the Co-operative has elected to separate non-lease components and account for these separately.

The Co-operative recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the end of the lease term, unless the lease transfers ownership of the underlying asset to the Co-operative by the end of the lease term or the cost of the right-of-use asset reflects that the Co-operative will exercise a purchase option. In that case the right-of-use asset will be depreciated over the useful life of the underlying asset, which is determined on the same basis as those of property, plant and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

(A Society Registered Under the Co-operative Societies Act)

Notes to the Financial Statements (Continued) December 31, 2021

4. <u>Significant accounting policies (continued)</u>

(f) Leases (continued)

As a lessee (continued)

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Co-operative's incremental borrowing rate. Generally, the Co-operative uses its incremental borrowing rate as the discount rate.

The Co-operative determines its incremental borrowing rate by obtaining interest rates from various external financing sources and makes certain adjustments to reflect the terms of the lease and type of asset leased.

Lease payments included in the measurement of the lease liability comprise the following:

- fixed payments, including in-substance fixed payments;
- variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- amounts expected to be payable under a residual value guarantee; and
- the exercise price under a purchase option that the Co-operative is reasonably certain to exercise, lease payments in an optional renewal period if the Co-operative is reasonably certain to exercise an extension option, and penalties for early termination of a lease unless the Co-operative is reasonably certain not to terminate early.

The lease liability is measured at amortised cost using the effective interest method. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the Co-operative's estimate of the amount expected to be payable under a residual value guarantee, if the Co-operative changes its assessment of whether it will exercise a purchase, extension or termination option or if there is a revised in-substance fixed lease payment.

When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in surplus or deficit if the carrying amount of the right-of-use asset has been reduced to zero.

The Co-operative presents right-of-use assets that do not meet the definition of investment property in the statement of financial position.

(A Society Registered Under the Co-operative Societies Act)

Notes to the Financial Statements (Continued) December 31, 2021

4. <u>Significant accounting policies (continued)</u>

(f) Leases (continued)

Short-term leases and leases of low-value assets

The Co-operative has elected not to recognise right-of-use assets and lease liabilities for leases of low-value assets and short-term leases. The Co-operative recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

As a lessor

At inception or on modification of a contract that contains a lease component, the Cooperative allocates the consideration in the contract to each lease component on the basis of their relative stand-alone prices.

When the Co-operative acts as a lessor, it determines at lease inception whether each lease is a finance lease or an operating lease.

To classify each lease, the Co-operative makes an overall assessment of whether the lease transfers substantially all of the risks and rewards incidental to ownership of the underlying asset. If this is the case, then the lease is a finance lease, if not, then it is an operating lease. As part of this assessment, the Co-operative considers certain indicators such as whether the lease is for the major part of the economic life of the asset. In the Co-operative's capacity as a lessor, all its leases are classified as operating leases.

If an arrangement contains lease and non-lease components, then the Co-operative applies IFRS 15 to allocate the consideration in the contract.

The Co-operative recognises lease payments received under operating leases as income on a straight line basis over the lease term as part of 'other income'.

(g) Members' shares

(i) Permanent shares

Permanent shares may be transferred by a member to another but are not available for withdrawal. Permanent shares are classified as equity.

(ii) Voluntary shares

Members' voluntary shares represent deposit holdings of the Co-operative's members, to satisfy membership requirements and to facilitate eligibility for loans and other benefits. These shares are classified as financial liabilities and are measured at amortised cost. Interest payable on these shares is reported as interest in profit or loss.

(h) Provisions

Provisions are recognised when the Co-operative has a present, legal or constructive obligation as a result of past events, if it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate of the amount of the obligation can be made.

(A Society Registered Under the Co-operative Societies Act)

Notes to the Financial Statements (Continued) December 31, 2021

4. <u>Significant accounting policies (continued)</u>

- (i) Revenue recognition
 - (i) Interest income

Effective interest rate

Interest income is recognised in surplus or deficit using the effective interest method. The 'effective interest rate' is the rate that exactly discounts the estimated future cash receipts through the expected life of the financial asset to its gross carrying amount.

When calculating the effective interest rate for financial instruments other than purchased or originated credit impaired assets, the Co-operative estimates future cash flows considering all contractual terms of the financial instrument, but not ECL. For purchased or originated credit-impaired financial assets, a credit-adjusted effective interest rate is calculated using estimated future cash flows including ECL.

The calculation of the effective interest rate includes transaction costs and fees and points paid or received that are an integral part of the effective interest rate. Transaction costs include incremental costs that are directly attributable to the acquisition of a financial asset.

Amortised cost and gross carrying amount

The 'amortised cost' of a financial asset is the amount at which the financial asset is measured on initial recognition minus the principal repayments, plus or minus the cumulative amortisation using the effective interest method of any difference between that initial amount and the maturity amount, adjusted for any expected credit loss allowance.

The 'gross carrying amount of a financial asset' is the amortised cost of a financial asset before adjusting for any expected credit loss allowance.

Calculation of interest income

The effective interest rate of a financial asset is calculated on initial recognition of the financial asset. In calculating interest income, the effective interest rate is applied to the gross carrying amount of the asset (when the asset is not creditimpaired). The effective interest rate is revised as a result of periodic re-estimation of cash flows of floating rate instruments to reflect movements in market rates of interest.

However, for financial assets that have become credit-impaired subsequent to initial recognition, interest income is calculated by applying the effective interest rate to the amortised cost of the financial asset. If the asset is no longer credit-impaired, then the calculation of interest income reverts to the gross basis.

Under Regulatory requirements, no interest is recognised on loans that are in arrears from 90 days or more, even if they are not credit-impaired (see also note 10).

(A Society Registered Under the Co-operative Societies Act)

Notes to the Financial Statements (Continued) December 31, 2021

4. <u>Significant accounting policies (continued)</u>

- (i) Revenue recognition (continued)
 - (i) Interest income (continued)

Effective interest rate (continued)

For financial assets that were credit-impaired on initial recognition, interest income is calculated by applying the credit adjusted effective interest rate to the amortised cost of the asset. The calculation of interest income does not revert to the gross basis even if the credit risk of the asset improves.

Presentation

Interest income calculated using the effective interest method presented in the statement of profit or loss and OCI, includes interest on financial assets measured at amortised cost, and interest on debt instruments measured at FVOCI.

(ii) Fees and commission

Fee and commission income from contracts with customers is measured based on the consideration specified in a contract with a customer. The Co-operative recognises revenue when it transfers control over a service to a customer.

Fee and commission income including account service fees, are recognised as the related services are performed.

A contract with a customer that results in a recognised financial instrument in the Co-operative's financial statements may be partially in the scope of IFRS 9 and partially in the scope of IFRS 15. If this is the case, then the Co-operative first applies IFRS 9 to separate and measure the part of the contract that is in the scope of IFRS 9 and then applies IFRS 15 to the residual amount.

The nature and timing of the satisfaction of performance obligations in contracts with customers, including significant payment terms, and the related revenue recognition policies are as follows:

Se	ervice fees	The Co-operative provides banking related services to members which give rise to fees for the acquisition of bills of sale, credit checks and letters of undertaking, standing orders, account status letters and account statements.	transactions is recognised at the point in time when
		Transaction-based fees such as credit bureau fees are charged to the members' accounts when the transaction takes place.	
		Service fees are charged when the service is delivered and are based on fixed rates determined by the Co- operative. Processing fees relating to loans are a percentage of the principal and charged to the member's account at the time of the transaction.	

(iii) Dividends

Dividend income from equity financial investments is recognised when the Cooperative's right to receive payment has been established.

(j) Interest expense

Interest expense is recognised in surplus or deficit using the effective interest method. The 'effective interest rate' is the rate that exactly discounts estimated future cash payments through the expected life of the financial instrument to the amortised cost of the financial liability.

The calculation of the effective interest rate includes transaction costs and fees that are an integral part of the effective interest rate. Transaction costs include incremental costs that are directly attributable to the issue of a financial liability.

The 'amortised cost' of a financial liability is the amount at which the financial liability is measured on initial recognition minus the principal repayments, plus or minus the cumulative amortisation using the effective interest method of any difference between that initial amount and the maturity amount.

(A Society Registered Under the Co-operative Societies Act)

Notes to the Financial Statements (Continued) December 31, 2021

4. <u>Significant accounting policies (continued)</u>

(j) Interest expense (continued)

The effective interest rate of a financial liability is calculated on initial recognition of the financial liability. In calculating interest expense, the effective interest rate is applied to the amortised cost of the liability.

Interest expense presented in the statement of surplus or deficit and OCI includes interest expense on financial liabilities measured at amortised cost.

(k) Institutional capital

Institutional capital includes retained earnings reserve and other statutory and legal reserves as set out in article XIV rule 66 of the Co-operative Societies Act. These are set aside in order to strengthen the capital base of the Co-operative and thereby protect the interest of the members. These amounts are not available for distribution.

(1) Statutory reserves

The statutory and legal reserves are maintained in accordance with the provisions of the Co-operative Societies Act which require that a minimum of 20% of surplus before honoraria should be carried to a fund. A registered society may apply to the Registrar to allow the required percentage to be reduced. However, the reduction will not be granted below 10%.

(m) Foreign currency translation

Transactions in foreign currencies are converted at the exchange rates prevailing at the dates of the transactions. At the reporting date, monetary assets and liabilities denominated in foreign currencies are translated using the exchange rates ruling at that date. Exchange differences arising from the settlement of transactions at rates different from those at the dates of the transactions and unrealised foreign exchange differences on unsettled foreign currency monetary assets and liabilities are recognised in surplus or deficit.

(n) Impairment of non-financial assets

The carrying amounts of the Co-operative's non-financial assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, the asset's recoverable amount is estimated. An impairment loss is recognised whenever the carrying amount of an asset or its cash-generating unit exceeds its recoverable amount. A cash-generating unit is the smallest identifiable asset group that generates cash inflows that are largely independent from other assets and groups. Impairment losses are recognised in surplus or deficit.

(i) Calculation of recoverable amount

The recoverable amount of an asset or cash generating unit is the greater of its value in use and its fair value less cost to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For an asset that does not generate largely independent cash inflows, the recoverable amount is determined for the cash-generating unit to which the asset belongs.

(A Society Registered Under the Co-operative Societies Act)

Notes to the Financial Statements (Continued) December 31, 2021

4. <u>Significant accounting policies (continued)</u>

- (n) Impairment of non-financial assets (continued)
 - (ii) Reversals of impairment

An impairment loss in respect of assets is reversed if there has been a change in the estimates used to determine the recoverable amount.

An impairment loss is reversed only to the extent that the assets carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

5. <u>Critical accounting estimates and judgements</u>

The preparation of the financial statements in conformity with IFRS requires management to make estimates and assumptions that affect the reported amounts of, and disclosures relating to, assets, liabilities, contingent assets and contingent liabilities at the reporting date and the income and expenses for the year then ended. Actual amounts could differ from those estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and future periods, if the revision affects both current and future periods.

Judgements made by management in the application of IFRS that have a significant effect on the financial statements and estimates with a significant risk of material adjustment in the next financial year are discussed below:

(i) Judgements

For the purpose of these financial statements prepared in accordance with IFRS, judgement refers to the informed identification and analysis of reasonable alternatives, considering all relevant facts and circumstances and the well-reasoned, objective and unbiased choice of the alternative that is most consistent with the agreed principles set out in IFRS.

(1) Classification of financial assets:

The assessment of the business model within which the assets are held and assessment of whether the contractual terms of the financial asset are Solely Payments of Principal and Interest (SPPI) on the principal amount outstanding requires management to make certain judgements about its business operations.

(2) Impairment of financial assets:

Establishing the criteria for determining whether credit risk on the financial asset has increased significantly since initial recognition, determining methodology for incorporating forward-looking information into measurement of expected credit loss (ECL) and selection and approval of models used to measure ECL requires significant judgement.

(A Society Registered Under the Co-operative Societies Act)

Notes to the Financial Statements (Continued) December 31, 2021

- 5. Critical accounting estimates and judgements (continued)
 - (ii) Key assumptions concerning the future and other sources of estimation uncertainty
 - (1) Impairment losses on financial assets

In determining amounts recorded for impairment of financial assets in the financial statements, management makes assumptions in determining the inputs to be used in the ECL measurement model, including incorporation of forward-looking information. Management also estimates the likely amount of cash flows recoverable on the financial assets in determining loss given default. The use of assumptions make uncertainty inherent in such estimates.

(2) Employee benefits asset

The amounts recognised in the statement of financial position and statement of profit or loss and other comprehensive income for pension are determined actuarially using several assumptions. The primary assumptions used in determining the amounts recognised include expected long-term return on plan assets and the discount rate used to determine the present value of estimated future cash flows required to settle the pension obligations.

The discount rate is determined based on the estimate of yield on long-term government securities that have maturity dates approximating the terms of the Cooperative's obligations; in the absence of such instruments in Jamaica, it has been necessary to estimate the rate by extrapolating from the longest tenor security on the market. Any changes in these assumptions will impact the amounts recorded in the financial statements for these obligations.

Judgement is also exercised in determining the proportionate share of the defined benefit obligation, plan assets and cost as well as the extent that the surplus or deficit in the plan may affect the future contributions for each individual employer in the plan.

6. Financial risk management

(a) Introduction and overview

By its nature, the Co-operative's activities are principally related to the use of financial instruments, which involves analysis, evaluation and management of some degree of risk or combination of risks. The Co-operative manages risk through a framework of risk principles, organisational structures and risk management and monitoring processes that are closely aligned with the activities of the Co-operative. Risk management policies are designed to identify and analyse the risks faced by the Co-operative, to set appropriate risk limits and controls, and to monitor risks and adherence to limits by means of regularly generated reports. The Co-operative's aim is therefore to achieve an appropriate balance between risks and return and minimize potential adverse effects on the Co-operative's financial performance.

(A Society Registered Under the Co-operative Societies Act)

Notes to the Financial Statements (Continued) December 31, 2021

6. Financial risk management (continued)

(a) Introduction and overview (continued)

The Co-operative has exposure to the following risks from its use of financial instruments:

- Credit risk
- Liquidity risk
- Market risk
- Operational risk

The Board of Directors is ultimately responsible for the establishment and oversight of the Co-operative's risk management framework. The Board has established committees for managing and monitoring risks.

Three key committees for managing and monitoring risks are the Supervisory Committee, the Credit Committee and the Finance Committee.

Supervisory Committee

The Supervisory Committee oversees the performance of personnel and systems within the Co-operative and ensures that internal procedures and controls are adhered to. The Supervisory Committee is assisted in its oversight role by Internal Audit. Internal Audit undertakes both regular and ad hoc reviews of management controls and procedures, the results of which are reported to the Supervisory Committee.

Credit Committee

The Credit Committee oversees the approval of credit facilities and disbursements to members. It is also primarily responsible for monitoring the quality of the loan portfolio.

Finance Committee

The Finance Committee is responsible for managing the Co-operative's assets and liabilities and the overall financial structure. It is also primarily responsible for managing the funding and liquidity risks of the Co-operative.

(b) Credit risk

The Co-operative takes on exposure to credit risk, which is the risk that a counterparty will cause a financial loss by being unable to pay amounts in full when due. Credit exposures arise principally in lending and investment activities.

(A Society Registered Under the Co-operative Societies Act)

Notes to the Financial Statements (Continued) December 31, 2021

6. Financial risk management (continued)

(b) Credit risk (continued)

For loans, credit decisions are primarily made by the Board of Directors, with some delegation of credit approval authority to the Credit Committee and certain members of executive management. The Co-operative's credit policy forms the basis for all its lending operations. The policy aims at maintaining a high quality loan portfolio, as well as enhancing the Co-operative's mission and strategy. The policy sets the basic criteria for acceptable risk and identifies risk areas that require special attention.

Additionally, the Co-operative is exposed to credit risk in its treasury activities, arising from financial assets that the Co-operative uses for investing its liquidity and managing currency and interest rate risks, as well as other market risks. There is also credit risk in off-balance sheet items, such as loan commitments.

Credit review process

The Co-operative has established a credit quality review process involving regular analysis of the ability of borrowers and other counterparties to meet interest and capital repayment obligations.

(i) Loans

Management of risk:

The Co-operative assesses the probability of default of individual borrowers using internal ratings. The Co-operative assesses each borrower on four critical factors. These factors are the member's credit history, ability to pay linked to the industry benchmarked debt service ratio of 75%, character profile and the member's economic stability, based on employment and place of abode.

Borrowers are segmented into two rating classes: performing and non-performing.

The credit quality review process allows the Co-operative to assess the potential loss as a result of the risk to which it is exposed and take corrective action. Exposure to credit risk is managed, in part, by obtaining collateral and personal guarantees.

(A Society Registered Under the Co-operative Societies Act)

Notes to the Financial Statements (Continued) December 31, 2021

6. Financial risk management (continued)

(b) Credit risk (continued)

Credit review process (continued)

(i) Loans (continued)

Credit quality

e				217,132		

(ii) Investments and resale agreements

Management of risk:

The Co-operative limits its exposure to credit risk by investing mainly in liquid securities. These investments and other liquid securities are held mainly in Government of Jamaica securities and with counterparties that Management regards as sound.

The Co-operative has documented policies which facilitate the management of credit risk on investment securities and resale agreements. The Co-operative's exposure and credit ratings of its counterparties are continually monitored.

(A Society Registered Under the Co-operative Societies Act)

Notes to the Financial Statements (Continued) December 31, 2021

6. Financial risk management (continued)

(b) Credit risk (continued)

Credit review process (continued)

(ii) Investments and resale agreements (continued)

Credit quality

The Co-operative identifies changes in credit risk by tracking published external credit ratings. To determine whether published ratings remain up to date and to assess whether there has been a significant increase in credit risk at the reporting date that has not been reflected in published ratings, the Co-operative supplements this by reviewing changes in bond yields together with available press and regulatory information on issuers.

Loss given default (LGD) parameters generally reflect an assumed recovery rate of percent except when the security is credit-impaired, in which case the estimate of loss is based on the instrument's current market price and original effective interest rate.

The following table sets out information about the credit quality of investment securities and resale agreements, based on Moody's credit rating index.

Financial investments at FVOCI	2021 <u>\$'000</u> Stage 1	2020 <u>\$'000</u> Stage 1
Non-investment grade, being total gross carrying amount	<u>214,773</u>	<u>219,750</u>
Loss allowance	330	708
Financial investments at amortised cost Non-investment grade Loss allowance	39,148 (<u>592</u>)	38,469 (<u>1,060</u>)
Carrying amount	<u>38,556</u>	<u>37,409</u>
Resale agreements at amortised cost Non-investment grade Loss allowance	1,697,359 (<u>623</u>)	1,125,299 (<u>1,161</u>)
Carrying amount	<u>1,696,736</u>	<u>1,124,138</u>

(iii) Liquid assets and bank balances

Liquid assets and bank balances are held in financial institutions which management regards as strong and there is no significant concentration. The strength of these financial institutions is constantly reviewed by the Finance Committee.

(A Society Registered Under the Co-operative Societies Act)

Notes to the Financial Statements (Continued) December 31, 2021

6. Financial risk management (continued)

(b) Credit risk (continued)

Credit review process (continued)

(iii) Liquid assets and bank balances (continued)

Impairment has been measured at 12-month expected loss basis and reflects the short maturities of the exposures. The Co-operative considers that liquid assets and bank balances have low credit risk. No impairment allowances were recognised for cash and bank balances.

The following table sets out the credit quality of liquid assets:

	<u>2021</u>	<u>2020</u>
	\$'000	\$'000
	Stage 1	Stage 1
Total gross carrying amount	2,087,408	1,833,576
Loss allowance	(331)	(<u>104</u>)
Carrying amount	<u>2,087,077</u>	<u>1,833,472</u>

(iv) Credit limits

The Co-operative manages concentrations of credit risk by placing limits on the amount of risk accepted in relation to a single borrower or groups of related borrowers, and to product segments. Borrowing limits are established by the use of the system described above. Limits on the level of credit risk by product categories, and for investment categories, are reviewed and approved bi-annually by the Board of Directors.

(v) Collateral held and other credit enhancements

The most widely used practice for mitigating credit risk is the taking of security in the form of physical assets, netting agreements and guarantees. The amount and type of collateral required depend on an assessment of the credit risk of the borrower and guidelines are implemented regarding the acceptability of different types of collateral. The principal collateral types provided for loans and advances are charges over members' balances, real property and motor vehicles. There were no significant changes in the quality of collateral held during the year.

Estimates of fair values are based on value of collateral assessed at the time of borrowing and are generally not updated except when a loan (or other financial asset) is individually assessed as impaired. Collateral is not generally held against deposits and investment securities, except when the securities are held as part of resale agreements (note 9). When a loan becomes credit-impaired, the fair value of the collateral is updated and used in calculating the ECL, otherwise a proxy for the collateral value is generally used on a portfolio basis to compute the ECL throughout the year.

Management monitors the market value of collateral, requests additional collateral in accordance with the underlying agreement, and monitors the market value of collateral obtained during its review of the adequacy of the provision for credit losses.

(A Society Registered Under the Co-operative Societies Act)

	<u>189,416</u>	290,797
Total	449,260	<u>534,690</u>

(vi) Impairment

Inputs, assumptions and techniques used for estimating impairment

See accounting policy at note 4(a)(vii).

Significant increase in credit risk

When determining whether the risk of default on a financial instrument has increased significantly since initial recognition, the Co-operative considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Co-operative's historical experience and third party policies including forward-looking information.

(A Society Registered Under the Co-operative Societies Act)

Notes to the Financial Statements (Continued) December 31, 2021

6. Financial risk management (continued)

(b) Credit risk (continued)

Credit review process (continued)

(vi) Impairment (continued)

Inputs, assumptions and techniques used for estimating impairment (continued)

Significant increase in credit risk (continued)

The objective of the assessment is to identify whether a significant increase in credit risk has occurred for an exposure by comparing:

- the remaining lifetime probability of default (PD) as at the reporting date; with
- the remaining lifetime PD for this point in time that was estimated at the time of initial recognition of the exposure (adjusted where relevant for changes in prepayment expectations).

The Co-operative uses three criteria for determining whether there has been a significant increase in credit risk:

- quantitative test based on movement in PD;
- qualitative indicators; and
- the 30 days past due backstop indicator.

Credit risk grades

The Co-operative allocates each exposure to a credit risk grade based on a variety of data that is determined to be predictive of the risk of default and applying experienced credit judgment. Credit risk grades are defined using qualitative and quantitative factors that are indicative of the risk of default. These factors may vary depending on the nature of the exposure and the type of borrower.

Each exposure is allocated to a credit risk grade on initial recognition based on available information about the borrower. Exposures are subject to ongoing monitoring, which may result in an exposure being moved to a different credit risk grade. The monitoring typically involves use of the following data:

- information obtained during periodic review of customer files;
- data from credit reference agencies;
- actual and expected significant changes in the political, regulatory and technological environment of the borrower;
- payment record this includes overdue status as well as a range of variables about payment ratios; and
- existing and forecast changes in business, financial and economic conditions.

(A Society Registered Under the Co-operative Societies Act)

Notes to the Financial Statements (Continued) December 31, 2021

6. Financial risk management (continued)

(b) Credit risk (continued)

Credit review process (continued)

(vi) Impairment (continued)

Inputs, assumptions and techniques used for estimating impairment (continued)

Determining whether credit risk has been increased significantly:

The Co-operative assesses whether credit risk has increased significantly since initial recognition at each reporting date. Determining whether an increase in credit risk is significant depends on the characteristics of the financial instrument and the borrower.

Credit risk is deemed to increase significantly where the credit rating of a security decreased four or more levels on the international credit rating scale since the rating at origination date or the issuer of the instrument is experiencing or is very likely to experience one or more adversities and where there are adverse changes in one or more of the credit risk drivers that could increase the likelihood of default since the origination of loans.

As a backstop, the Co-operative considers that a significant increase in credit risk occurs no later than when an asset is more than 30 days past due. Days past due are determined by counting the number of days since the earliest elapsed due date in respect of which full payment has not been received. Due dates are determined without considering any grace period that might be available to the borrower.

If there is evidence that there is no longer a significant increase in credit risk relative to initial recognition, then the loss allowance on an instrument returns to being measured as 12-month ECL. Some qualitative indicators of an increase in credit risk, such as delinquency or forbearance, may be indicative of an increased risk of default that persists after the indicator itself has ceased to exist. In these cases, the Co-operative determines a probation period during which the financial asset is required to demonstrate good behaviour to provide evidence that its credit risk has declined sufficiently. When contractual terms of a loan have been modified, evidence that the criteria for recognising lifetime ECL are no longer met includes a history of up-to-date payment performance against the modified contractual terms.

The Co-operative monitors the effectiveness of the criteria used to identify significant increases in credit risk by regular reviews to confirm that:

- the criteria are capable of identifying significant increases in credit risk before an exposure is in default;
- the criteria do not align with the point in time when an asset becomes 30 days past due;
- the average time between the identification of a significant increase in credit risk and default appears reasonable;

(A Society Registered Under the Co-operative Societies Act)

Notes to the Financial Statements (Continued) December 31, 2021

6. Financial risk management (continued)

(b) Credit risk (continued)

Credit review process (continued)

(vi) Impairment (continued)

Inputs, assumptions and techniques used for estimating impairment (continued)

Determining whether credit risk has been increased significantly (continued):

The Co-operative monitors the effectiveness of the criteria used to identify significant increases in credit risk by regular reviews to confirm that (continued):

- exposures are not generally transferred directly from 12-month ECL measurement to credit-impaired; and
- there is no unwarranted volatility in loss allowance from transfers between 12-month PD (Stage 1) and lifetime PD (Stage 2).

Definition of default

The Co-operative considers a financial asset to be in default when:

- the borrower is unlikely to pay its credit obligations to the Co-operative in full, without recourse by the Co-operative to actions such as realising security (if any is held);
- the borrower is more than 90 days past due on any material credit obligation to the Co-operative; or
- it is becoming probable that the borrower will restructure the asset as a result of bankruptcy due to the borrower's inability to pay its credit obligations.

In assessing whether a borrower is in default, the Co-operative considers indicators that are:

- qualitative: e.g. breaches of covenant;
- quantitative: e.g. overdue status and non-payment on another obligation of the same issuer to the Co-operative; and
- based on data developed internally and obtained from external sources.

Inputs into the assessment of whether a financial instrument is in default and their significance may vary over time to reflect changes in circumstances.

The definition of default largely aligns with that applied by the Co-operative for regulatory capital purposes.

Incorporation of forward-looking information

The Co-operative incorporates forward-looking information into both the assessment of whether the credit risk of an instrument has increased significantly since its initial recognition and the measurement of ECL.

(A Society Registered Under the Co-operative Societies Act)

Notes to the Financial Statements (Continued) December 31, 2021

6. Financial risk management (continued)

(b) Credit risk (continued)

Credit review process (continued)

(vi) Impairment (continued)

Inputs, assumptions and techniques used for estimating impairment (continued)

Incorporation of forward-looking information (continued)

The Co-operative uses a forward looking scorecard model to estimate the potential impact of future economic conditions. It formulates three economic scenarios: a base case, which is the median scenario assigned a 50% probability of occurring, and two less likely scenarios, one upside and one downside, assigned a 20% and 30% probability of occurring respectively. Each scenario considers the expected impact of inflation, interest rates, unemployment rates and gross domestic product (GDP). The base case is aligned with information used by the Co-operative for other purposes such as strategic planning and budgeting. External information considered includes economic data and forecasts published by governmental bodies and monetary authorities in Jamaica, supranational organisations and selected private-sector and academic forecasters.

The economic scenarios used as at December 31, 2021 assumed no significant changes in key indicators for Jamaica within the next year.

Based on the economic scenario, proxies of 0.6, 1.1 and 1.6 times ECL were determined to be appropriate for positive, stable and negative outlooks respectively.

Measurement of ECLs

The key inputs into the measurement of ECL are the term structure of the following variables:

- probability of default (PD);
- loss given default (LGD); and
- exposure at default (EAD)

ECL for exposures in Stage 1 is calculated by multiplying the 12-month PD by LGD and EAD. Lifetime ECL is calculated by multiplying the lifetime PD by LGD and EAD.

LGD is the magnitude of the likely loss if there is a default. The Co-operative estimates LGD parameters based on the history of recovery rates of claims against defaulted counterparties. The LGD models consider the structure, collateral, seniority of the claim, counterparty industry and recovery costs of any collateral that is integral to the financial asset. For loans secured by properties, loan-to-value (LTV) ratios are a key parameter in determining LGD. LGD estimates are recalibrated for different economic scenarios and, for real estate lending, to reflect possible changes in property prices. They are calculated on a discounted cash flow basis using the effective interest rate as the discounting factor.

(A Society Registered Under the Co-operative Societies Act)

Notes to the Financial Statements (Continued) December 31, 2021

6. Financial risk management (continued)

(b) Credit risk (continued)

Credit review process (continued)

(vi) Impairment (continued)

Inputs, assumptions and techniques used for estimating impairment (continued)

Measurement of ECLs (continued)

EAD represents the expected exposure in the event of a default. The Co-operative derives the EAD from the current exposure to the counterparty and potential changes to the current amount allowed under the contract and arising from amortisation. The EAD of a financial asset is its gross carrying amount at the time of default.

As described above, and subject to using a maximum of a 12-month PD for Stage 1 financial assets, the Co-operative measures ECL considering the risk of default over the maximum contractual period (including any borrower's extension options) over which it is exposed to credit risk, even if, for credit risk management purposes, the Co-operative considers a longer period. The maximum contractual period extends to the date at which the Co-operative has the right to require repayment of an advance or terminate a loan commitment or guarantee.

Loss allowance

The loss allowance recognised is analysed as follow:

	2021			
	Stage 1 \$'000	Stage 2 \$'000	Stage 3 \$'000	Total \$'000

(vii) Exposure to credit risk

Maximum credit exposure to credit risk before collateral held or other credit enhancements

The maximum credit exposure, the total amount of loss that the Co-operative would suffer if every counterparty to the Co-operative's financial assets were to default at once, is represented by the carrying amount of the financial assets shown on the statement of financial position as at the reporting date.

(A Society Registered Under the Co-operative Societies Act)

Notes to the Financial Statements (Continued) December 31, 2021

6. Financial risk management (continued)

(c) Liquidity risk

Liquidity risk is the risk that the Co-operative is unable to meet its payment obligations associated with its financial liabilities when they fall due and to replace funds when they are withdrawn. The consequences may be the failure to meet obligations to repay depositors and fulfill commitments to lend.

The Co-operative's approach to managing liquidity risk is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damages to the Co-operative's reputation.

The Co-operative is subject to liquidity limit imposed by JCCUL and compliance is regularly monitored. This limit requires that the Co-operative maintain liquid assets amounting to at least 10% of withdrawable savings and deposits. The liquid asset ratio as at December 31, 2021 was approximately 28% (2020: 24%) which is in compliance with the standard.

Liquidity risk management process

The liquidity risk management process, as carried out within the Co-operative, includes:

- (i) Monitoring future cash flows and liquidity on a daily basis. This incorporates an assessment of expected cash flows and the availability of high grade collateral which could be used to secure funding, if required;
- (ii) Maintaining a portfolio of highly marketable and diverse assets that can easily be liquidated as protection against any unforeseen interruption to cash flow;
- (iii) Optimising cash returns on investments; and
- (iv) Managing the concentration and profile of debt maturities.

Monitoring and reporting take the form of an analysis of the cash balances and expected investment maturity profiles for the next day, week and month, as these are key periods for liquidity management. The starting point for those projections is an analysis of the contractual maturity of the financial liabilities and the expected collection date of the financial assets.

The maturities of assets and liabilities and the ability to replace, at an acceptable cost, interest-bearing liabilities as they mature, are important factors in assessing the liquidity of the Co-operative and its exposure to changes in interest rates and exchange rates.

There was no change in how the Co-operative measures and manages liquidity risk during the year.

(A Society Registered Under the Co-operative Societies Act)

Notes to the Financial Statements (Continued) December 31, 2021

(d) Market risk

The Co-operative takes on exposure to market risk, which is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risks mainly arise from changes in foreign currency exchange rates and interest rates. Market risk is monitored by the Finance Committee which carries out extensive research and monitors the price movement of financial assets on the local and international markets. Market risk exposures are measured using sensitivity analysis.

(i) Currency risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The main currency giving rise to this risk is the US\$.

(A Society Registered Under the Co-operative Societies Act)

Notes to the Financial Statements (Continued) December 31, 2021

6. Financial risk management (continued)

- (d) Market risk (continued)
 - (i) Currency risk (continued)

The Co-operative's exposure to foreign currency risk at the reporting date was as follows:

	<u>2021</u> US\$'000	<u>2020</u> US\$'000
Liquid assets - earning	8	8
Resale agreements	441	399
Financial investments	<u>310</u>	<u>310</u>
	<u>759</u>	<u>717</u>

The exchange rate of the US\$ to the J\$ at the reporting date was US152.7521 to J1.00 (2020: J140.7687).

Foreign currency sensitivity

The effect of a 8% (2020: 6%) strengthening of the United States dollar against the Jamaica dollar at the reporting date would, all other variables held constant, have resulted in an increase in surplus for the year of J\$9,275,000 (2020: J\$6,056,000). A 2% (2020: 2%) weakening in the exchange rate would, on the same basis, have resulted in a decrease in surplus of J\$2,319,000 (2020: J\$2,018,000).

(ii) Interest rate risk

Interest rate risk is the risk that the value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates, and arises mainly from investments, loans and deposits.

Floating rate instruments expose the Co-operative to cash flow interest risk, whereas fixed interest rate instruments expose the Co-operative to fair value interest risk.

The Co-operative's interest rate risk policy requires it to manage interest rate risk by maintaining an appropriate mix of fixed and variable rate instruments as determined by the Finance Committee. The policy also requires it to manage the maturities of interest-bearing financial assets and interest bearing financial liabilities. The Board sets limits on the level of mismatch of interest rate re-pricing that may be undertaken, which is monitored daily by the Finance department. Management estimates that the expected cash flows on these instruments will occur much later as demonstrated by retention history. These may vary significantly from actual cash flows which are generally expected to maintain a stable or increasing balance.

Interest rate sensitivity

The following table indicates the sensitivity to a reasonable possible change in interest rates, with all other variables being held constant.

The sensitivity of the surplus is the effect of the assumed changes in interest rates on net income based on the floating rate financial assets and financial liabilities. The sensitivity of equity is calculated by revaluing fixed rate financial assets classified and measured at FVOCI for the effect of the assumed changes in interest rates. The correlation of variables will have a significant effect in determining the ultimate impact on market risk, but to demonstrate the impact due to changes in variable, they have to be on an individual basis. It should be noted that movements in these variables are nonlinear.

(e) Operational risk

Operational risk is the risk of direct or indirect loss arising from a wide variety of causes associated with the Co-operative's processes, personnel, technology and infrastructure, and from external factors other than credit, market and liquidity risks such as those arising from legal and regulatory requirements and generally accepted standards of corporate behaviour. Operational risks arise from all of the Co-operative's operations.

The Co-operative's objective is to manage operational risks so as to balance the avoidance of financial losses and damage to the Co-operative's reputation with overall cost effectiveness and to avoid control procedures that restrict initiative and creativity.

(A Society Registered Under the Co-operative Societies Act)

Notes to the Financial Statements (Continued) December 31, 2021

6. Financial risk management (continued)

(e) Operational risk (continued)

The primary responsibility for the development and implementation of controls to address operational risk is assigned to senior management within each department. This responsibility is supported by the development of overall standards for the management of operational risk in the following areas:

- Requirement for appropriate segregation of duties, including the independent authorisation of transactions;
- Requirements for the reconciliation and monitoring of transactions;
- Compliance with regulatory and other legal requirements;
- Documentation of controls and procedures;
- Requirement for the periodic assessment of operational risks faced, and the adequacy of controls and procedures to address the risks identified;
- Requirements for the reporting of operational losses and proposed remedial action;
- Development of a contingency plan;
- Risk mitigation, including insurance where this is effective.

Compliance with the Co-operative's standards is supported by a programme of periodic reviews undertaken by Internal Audit. The results of internal audit reviews are discussed with the department heads, with summaries submitted to senior management.

(f) Capital management

The Co-operative's objectives when managing institutional capital, which is a broader concept than the "equity" on the face of the statement of financial position are:

- (i) To comply with the capital requirements set by the JCCUL for the financial sector in which the Co-operative operates;
- (ii) To safeguard the Co-operative's ability to continue as a going concern so that it can continue to provide returns and benefits for members;
- (iii) To maintain an 8% ratio of institutional capital to total assets; and
- (iv) To maintain a strong capital base to support the development of its business through the allocation of at least 20% of surplus to institutional capital.

Capital adequacy and the use of regulatory capital are monitored by management, based on the guidelines in its Capital Asset Management Policy. The JCCUL currently requires member co-operatives to maintain a minimum level of institutional capital at 8% of total assets. At the reporting date, this ratio was 15% (2020: 15%) which is in compliance with the requirements.

(A Society Registered Under the Co-operative Societies Act)

Notes to the Financial Statements (Continued) December 31, 2021

6. Financial risk management (continued)

(f) Capital management (continued)

The proposed Bank of Jamaica regulations require JCCUL to ensure that member cooperatives:

- (i) Hold a minimum level of the regulatory capital of 6% of total assets; and
- (ii) Maintain a ratio of total regulatory capital to risk-weighted assets at or above 10%.

The table below summarises the composition of regulatory capital and the ratios of the Co-operative as at the reporting date. During the year, the Co-operative complied with all externally imposed capital requirements to which it is subject.

	2021		20)20
	<u>Actual</u> \$'000	<u>Required</u> \$'000	<u>Actual</u> \$'000	Required \$'000
Total regulatory capital	2,712,055	1,398,992	<u>2,546,293</u>	<u>1,311,495</u>
Total capital ratio	16%	8%	16%	8%

7. Fair value of financial instruments

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction at the measurement date and is best evidenced by a quoted market price, if one exists. Many of the Co-operative's financial instruments lack an available trading market. Therefore, these instruments have been valued using other valuation techniques and the values may not necessarily be indicative of the amounts realisable in an immediate settlement of the instruments. In addition, the calculation of estimated fair value is based on market conditions at a specific point in time and may not be reflective of future fair values.

The fair values of liquid assets, resale agreements, cash and cash equivalents, other assets and other liabilities are assumed to approximate their carrying values due to their short-term nature.

The fair value of financial investments is based on quoted market bid prices, when available. Where quoted market bid prices are not available, other valuation techniques are used.

External credits, members' voluntary shares and members' deposits are carried at amortised cost, which is deemed to approximate their fair values, as these balances attract rates and terms comparable to market rates and terms for similar instruments.

The fair value of shares held in Jamaica Co-operative Credit Union League and other related entities are determined using the net asset valuation method. There is no available market for these instruments. The Co-operative has no intention to dispose of these investments.

The fair value of loans to members could not be readily determined as the loans are generally unique to the Co-operative although they are at market comparable interest rates. Additionally, the carrying amount of the loans reflect the expected lifetime credit losses, value and quality of collateral and interest rates on the loans.

(A Society Registered Under the Co-operative Societies Act)

Notes to the Financial Statements (Continued) December 31, 2021

7. Fair value of financial instruments (continued)

Financial instruments that are measured at fair value at the reporting date are grouped into Levels 1, 2 and 3, based on the degree to which the fair value is observable as follows:

- (i) Level 1: Fair values are quoted prices (unadjusted) in active markets for identical instruments;
- (ii) Level 2: Fair value measurements are those derived from valuation techniques based on inputs other than quoted market prices included within level 1, that are observable for the instrument, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- (iii) Level 3: Fair value measurements are those derived from valuation techniques using significant inputs for the instrument that are not based on observable market data (unobservable inputs).

Accounting classification and fair values

The following table shows the carrying amount of financial assets measured at fair value, their classification and their levels in the fair value hierarchy. There were no transfers between levels during the year. It does not include fair value information for financial assets and liabilities not measured at fair value if the carrying amount is a reasonable approximation of fair value.

7. Fair value of financial instruments (continued)

Valuation techniques

8.

The valuation techniques used in measuring fair value in the level 2 and level 3 hierarchy are as detailed below. Significant unobservable inputs used in the Net Asset Valuation (NAV) method for unquoted equities include assets and liabilities that do not have a quoted market price. Unquoted equities represent holdings in entities in the financial sector providing services mainly to credit unions. As these are financial entities, the NAV is considered an appropriate basis to fair value these equities.

Notes to the Financial Statements (Continued) December 31, 2021

9. <u>Resale agreements</u>

The Co-operative enters into resale agreements collateralised by the Government of Jamaica securities. These agreements may result in a credit exposure in the event that the counter party to the transaction is unable to fulfill its collateral obligations.

	<u>2021</u> \$'000	<u>2020</u> \$'000
Principal Less: Allowance for impairment [note 6(b)(ii)(vi)]	1,697,359 (<u>623</u>)	1,125,299 (<u>1,161</u>)
	<u>1,696,736</u>	<u>1,124,138</u>

All the securities purchased under resale agreements are fully collateralized by Government securities, the fair value of such underlying securities was \$1,826,276,000 (2020: \$1,410,556,000).

10. <u>Loans</u>

1 - 2months 2 - 3 months 4 - 6 months	of accounts in arrears 97 62 110	<u>loans</u> \$'000 112,173 93,812 92,068	Savings held against <u>loans</u> \$'000 50,731 27,296 50,248	Portion of loans not covered <u>by savings</u> \$'000 61,442 66,516 41,820	loan loss <u>provision</u> \$'000 - 9,381 27,620	<u>rate</u> % - 10 30

The interest in respect of non-performing loans which had not been recognised in the surplus for the year was \$18,460,903 (2020: \$10,977,000). Loans on which interest is suspended amounted to \$188,629,000 (2020: \$217,132,000).

(A Society Registered Under the Co-operative Societies Act)

Notes to the Financial Statements (Continued) December 31, 2021

10. Loans (continued)

(c) Allowance for impairment

The movement in the allowance for impairment determined under the requirements of IFRS is as follows:

	<u>2021</u>	<u>2020</u>
	\$'000	\$'000
Balance at January 1	211,319	171,145
Charged to surplus during the year	27,913	79,704
Amounts written off during the year	(<u>70,820</u>)	(<u>39,530</u>)
	<u>168,412</u>	<u>211,319</u>

The allowance for impairment under the JCCUL regulatory requirement is below the provision required under IFRS provisioning rules, hence, no amounts have been recognised in loan loss reserve. The excess of the regulatory provision over the IFRS provision is normally dealt with through a transfer between accumulated surplus and loan loss reserve [see note 24(d)].

(a) The QNET investment represents shares purchased from a private share offering.

- (b) This represents shares purchased in JCIA from a share offer underwritten by the JCCUL.
- (c) A minimum of 1,000,000 shares, each with a par value of \$1.00, must be held with the JCCUL for the Co-operative to retain membership status.
- (d) CUFMC investment represents shares purchased from a private share offering.
- (e) The rules of JCCUL stipulate that the Co-operative must invest 5% of the net increase in the members' share accounts in the JCCUL Mortgage Fund instruments. These instruments are used to secure joint mortgage facilities, which are extended to the members of the Co-operative.

Notes to the Financial Statements (Continued) December 31, 2021

12. Investment property (continued)

(a) An independent valuation of the properties was done as follows:

Date of valuation	Surveyor	Location of property	<u>Fair value</u>
November 28, 2019	Oliver's Property Services	North Street	\$ <u>33.0M</u>
August 18, 2020	Oliver's Property Services	May Pen Shop #26	\$ <u>6.0M</u>
November 12, 2016	Oliver's Property Services	May Pen Shop #25	SOLD

May Pen Shop #25 was sold for \$4.69M, with net proceeds of \$3.9M. The net book value at the time of sale was \$1.49M.

The fair value of real estate was determined by independent, licenced real estate dealers, with appropriate recognised professional qualifications and experience and is classified as Level 3 in the fair value hierarchy.

The following table shows the valuation techniques used in measuring the fair value of investment property, as well as the significant unobservable inputs used.

Valuation techniques	Significant unobservableInter-relationshipbetweeninputskeyunobservableinputsand fair valuemeasurement
 Market based approach. This model takes into account: A willing seller and buyer; A reasonable period in which to negotiate a sale, taking into account the nature of the property and state of the market; Values are expected to remain stable throughout the period of market exposure and disposal by sale (hypothetical); The property will be freely exposed to the market; and Potential rental value of the property in the current investment climate. 	 Judgements if the property can be sold, exchanged, transferred, let, mortgaged or used for any other economic activity, within its use class. The potential rental value of the property in the current investment climate. Judgement about what the property can be sold, exchanged, let, mortgaged, which had been determined to be better/(worse).

17. Employee benefits asset

The Co-operative provides for post-retirement benefit through a defined benefit pension plan, managed by the JCCUL. The plan is funded by contributions from the Co-operative and permanent employees in accordance with the rules of the plan. Under the plan, employees are entitled to retirement benefits based on 1.85% of their final 3-year average salary per year of contributory service. Effective December 31, 2016, the defined benefit pension plan was closed to new members. New employees participate in a defined contribution multi-employer pension plan operated by JCCUL.

	<u>2021</u>	<u>2020</u>
Discount rate	8.0%	9.0%
Expected future salary increases	5.5%	6.5%
Expected future pension increases	<u>3.75%</u>	<u>4.5%</u>

(i) Sensitivity analysis on projected benefit obligation

The calculation of the projected benefit obligation is sensitive to the assumptions used. The table below summarizes how the projected benefit obligation measured at the end of the reporting period would have increased/(decreased) as a result of a change in the respective assumptions by one percentage point. In preparing the analyses for each assumption, all others were held constant. The economic assumptions are somewhat linked as they are all related to inflation. Hence, for example, a 1% reduction in the long-term discount rate would cause some reduction in the medical trend rate.

	2021		2020	
	1%	1% 1%		1%
	<u>Decrease</u> \$'000	Increase \$'000	Decrease \$'000	Increase \$'000

(k) The estimated pension contributions expected to be paid into the plan during the next financial year is \$15,540,000 (2020: \$15,090,000).

18. Leases

(ii)

The Co-operative leases office space for its branches. The leases run for a period of 1-10 years. Previously, the leases were classified as operating leases under IAS 17. The discount rate used is 9%.

Leases as lessee (IFRS 16)

(i) Right-of-use assets

Right-of-use assets related to leased properties that do not meet the definition of investment property.

		<u>2021</u> \$'000	<u>2020</u> \$'000
	Balance at January 1 New right of use assets Depreciation charge for the year	24,355 31,166 (<u>18,237</u>)	30,879 11,403 (<u>17,927</u>)

	Interest on lease liabilities	3,727	2,246
(iv)	Amounts recognised in statement of cash flows		
	Total cash outflow for leases	<u>12,492</u>	<u>19,215</u>

(v) Extension options

Some property leases contain extension options exercisable by the Co-operative up to one year before the end of the non-cancellable contract period. Where practicable, the Co-operative seeks to include extension options in new leases to provide operational flexibility. The extension options held are exercisable only by the Co-operative and not by the lessors. The Co-operative assesses at lease commencement date whether it is reasonably certain to exercise the extension options. The Co-operative reassesses whether it is reasonably certain to exercise the options if there is a significant event or significant changes in circumstances within its control.

(vi) Short-term leases

The Co-operative has elected not to recognise right-of-use assets and lease liabilities for leases that are short-term.

JAMAICA TEACHERS' ASSOCIATION CO-OPERATIVE CREDIT UNION LIMITED (A Society Registered Under the Co-operative Societies Act)

Notes to the Financial Statements (Continued) December 31, 2021

23. Institutional capital (continued)

(a) Permanent shares

Permanent shares are paid in cash and are not redeemable but may be transferred or sold to another member.

(b) Statutory reserve

As required by the Co-operative Societies Act and the rules of the Co-operative, a minimum of twenty (20%) of the annual surplus and amounts collected for entrance fees are transferred to this reserve. For the year ended December 31, 2020, an additional amount was transferred from undistributed surplus, so as to maintain a statutory reserve of 15% of total assets, as agreed at the Annual General Meeting.

24. Non-institutional capital

		<u>2021</u> \$'000	<u>2020</u> \$'000
(a)	Accumulated surplus	826,251	673,832
(b)	Employee benefits asset reserve	127,201	181,702

(d)	Loan loss reserve [note 10(c)]	-	-
(e)	Revaluation reserve	9,430	9,430
(f)	Permanent share reserve	2,558	2,329
		<u>1,007,833</u>	<u>954,542</u>

(a) Accumulated surplus

This represents undistributed surplus.

(b) Employee benefits asset reserve

The employee benefits asset reserve represents pension surplus arising on the IAS 19 actuarial valuation of the pension plan in which the Co-operative participates. A portion of the annual changes in the value of the plan is shown in the surplus for the year, then transferred to this reserve, while the other portion is shown in other comprehensive income.

(c) Fair value reserve

This represents the unrealised gains or losses on the revaluation of FVOCI investments.

(d) Loan loss reserve

This represents the excess of the regulatory loan loss provision over IFRS 9 requirements. However, no provision has been made as the IFRS 9 provision is in excess of the PEARLS requirements.

(e) Revaluation reserve

This represents surplus arising on revaluation of land and building, prior to December 31, 2001, when the Co-operative adopted IFRS for the first time.

(f) Permanent share reserve

This represents an amount set aside from surplus to be ascribed as permanent shares for members.

(A Society Registered Under the Co-operative Societies Act)

28. <u>Dividends</u>

At the Annual General Meeting held on May 15, 2021 (2020: October 2, 2020), the members moved a motion to pay dividends of \$6,086,000 (2020: \$4,280,000).

29. Insurance

(a) Fidelity insurance coverage

During the year, the Co-operative had fidelity insurance coverage with Jamaica Co-operative Insurance Agency Limited. The total premium for the year was \$200,000 (2020: \$100,000).

(b) Life savings and loan protection coverage

During the year, the Co-operative had life savings and loan protection coverage with Cuna Mutual Insurance Co-operative Limited. Total premium for the year was \$72,437,000 (2020: \$80,815,000).

(c) Golden harvest plan insurance coverage

During the year, the Co-operative had Golden Harvest Plan insurance coverage with Cuna Mutual Insurance Co-operative Limited. The total premium for the year was \$16,002,000 (2020: \$9,462,000).

These policies remained in force throughout the year with all premiums being paid promptly.

30. <u>Related party transactions</u>

A related party is a person or entity that is related to the entity that is preparing its financial statements (referred to in IAS 24 *Related Party Disclosures* as the "reporting entity, in this case, the Co-operative").

- A. A person or close member of that person's family is related to the Co-operative if that person:
 - (i) has control or joint control over the Co-operative;
 - (ii) has significant influence over the Co-operative; or
 - (iii) is a member of the key management personnel of the Co-operative or of a parent of the Co-operative.
- B. An entity is related to the Co-operative if any of the following conditions applies:
 - (i) The entity and the Co-operative are members of the same group (which means that each parent, subsidiary and fellow subsidiary is related to the others).
 - (ii) One entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of a group of which the other entity is a member).
 - (iii) Both entities are joint ventures of the same third party.

JAMAICA TEACHERS' ASSOCIATION CO-OPERATIVE CREDIT UNION LIMITED (A Society Registered Under the Co-operative Societies Act)

Notes to the Financial Statements (Continued) December 31, 2021

30. <u>Related party transactions (continued)</u>

- B. An entity is related to the Co-operative if any of the following conditions applies (continued):
 - (iv) One entity is a joint venture of a third entity and the other entity is an associate of the third entity.
 - (v) The entity is a post-employment benefit plan for the benefit of employees of either the Co-operative or an entity related to the Co-operative.
 - (vi) The entity is controlled, or jointly controlled by a person identified in (a).
 - (vii) A person identified in (a)(i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity).
 - (viii) The entity, or any member of a group of which it is a part, provides key management personnel services to the Co-operative or to the parent of the Co-operative.

A related party transaction is a transfer of resources, services or obligations between related parties, regardless of whether a price is charged.

Related parties include directors and senior executives, all of whom are referred to as key management personnel. Also entities closely connected to them are related parties. The Co-operative entered into the following transactions with related parties:

(a) Key management personnel:

	<u>2021</u>	2020
	\$'000	\$'000
Loan balances	18,875	10,780
Members' deposits	19,420	23,840
Permanent Shares	14	19
Voluntary Shares	6,035	7,395
Interest earned from loans	217	746
Interest paid on deposits	<u> </u>	643

(b) At the reporting date, 15 (2020: 15) members of the Co-operative's Board of Directors and 14 (2020: 11) committee members had balances and transactions with the Co-operative as follows:

	2021	<u>2020</u>
	\$'000	\$'000
Members' deposits	60,202	91,406
Permanent Shares	220	228
Voluntary Shares	37,378	34,347
Loans including accrued interest	105,245	101,487
Interest paid on deposits	2,960	3,100
Interest earned from loans	11,072	<u>11,536</u>

During the year, no director, committee member or staff received loans which necessitated waiver of the loan policy. The secured loans to directors, committee members and staff were \$105,315,000 (2020: \$93,986,000) and unsecured loans were \$18,805,000 (2020: \$18,281,000), and were being repaid in accordance with their loan agreements. No impairment has been recognised on related party balances.

(A Society Registered Under the Co-operative Societies Act)

Notes to the Financial Statements (Continued) December 31, 2021

30. Related party transactions (continued)

(c) Compensation of key management personnel

The remuneration of key management personnel (included in staff costs) during the year was as follow:

	<u>2021</u> \$'000	<u>2020</u> \$'000
Salaries and other short-term benefits Post-employment benefits (*)	46,917 <u>3,378</u>	45,226

*This represents employer's contributions to the multi-employer defined benefit and defined contribution plans.

31. Comparison of ledger balances

The detailed records of balances relating to loans to members, deposits and members' voluntary shares compared with their respective control accounts were as follows:

	Loans to <u>members</u> \$'000	Members' <u>deposits</u> \$'000	Members' voluntary s <u>hares</u> \$'000
Balance as per general ledger Balance as per members' ledger	12,410,887 12,410,887	6,306,223 6,306,223	7,227,941 7,227,941
Variances at December 31, 2021			
Variances at December 31, 2020			

32. Capital commitment

As at December 31, 2021, the Co-operative entered into contracts for capital expenditure in the amount of \$335,758,000 (2020: \$9,798,000) in respect of which deposits amounting to \$83,095,000 (2020: \$6,665,000) have been made [see note 14(i)].

33. Covid-19 impact

The COVID 19 outbreak, which was declared a pandemic in March 2020, continued to affect economic activity and business operations locally and globally during 2021. There were additional waves of spiked infection rates in August and December 2021 locally. However, with vaccines being administered since March 2021 and the continuation of measures to contain the spread, there was a gradual increase in economic activity throughout the year. While consumer confidence rebounded, the activity did not return to pre-pandemic levels. The financial markets recovered some lost ground, but the performance fluctuated.

. . . .

JAMAICA TEACHERS' ASSOCIATION CO-OPERATIVE CREDIT UNION LIMITED (A Society Registered Under the Co-operative Societies Act)

Notes to the Financial Statements (Continued) December 31, 2021

33. Covid-19 impact (continued)

The level of business activity at the Co-operative improved during the year but was affected largely by the continuation of virtual teaching. Nevertheless, loan activity was commendable, resulting in an increase of \$218 million in the portfolio. In addition, at the end of the year, the delinquency rate was a healthy 3.03%. Notably, the performance of the investment portfolio recovered from the 2020 fallout in the financial markets. The portfolio earned \$34 million on the equity-based funds, a turnaround from the \$41 million loss in 2020.

The co-operative continued to have a buoyant liquidity position throughout the year.

The credit union continued to operate under the Disaster Risk Management policy which provided guidance in mitigating the impact of the pandemic.

There could be further significant negative financial effects on the Co-operative, depending on factors such as (i) significant sustained control of the outbreak, (ii) the levels of vaccination of the population, (iii) the continued effects on the global financial markets, (iv) the sustained return to physical classroom learning, and (v) the effects on the economy overall, all of which are highly uncertain and cannot be estimated reliably at this time.
